COMMISSIONER MEETS WITH FARMERS

Commissioner S. Mason Carbaugh of the Virginia Department of Agriculture and Commerce met today with a group of Virginia farmers who plan to attend the National Farmers Meeting this week in Omaha, Nebraska to hear first hand their plans and the current status of the agricultural movement.

"Farmers today do have many problems," said Commissioner Carbaugh. "For many the cost of production has gone past the price the farmer receives and many farmers particulary grain farmers are in a no-profit situaiton this year. I think its perfectly obvious that no business man could continue production for long under these conditions."

The Commissioner said he plans to meet with Commissioners from other states to discuss the situation.

Many farmers expressed an interest in continuing emphasis on agricultural exports. Commissioner Carbaugh noted that the Virginia Department of Agriculture was one of the first in the country with an International Trade section and that in recent years the Department has been instrumental in creating two regional state organizations whose sole aim is to develop further export potential.

Although many areas of the country are concerned with farm prices, Virginia farmer's also were hard hit by a disastrous drought. They certainly have every right to be concerned," he said.

The Commissioner said he appreciated the opportunity to meet with the farm group and their informing him of their plans, and also "We would like to commend the farmers of Virginia and the way they have conducted themselves during the protest in recent months.

Those meeting with the Commissioner included: C. Wade Fergyson of Emporia; B. L. Flippen of Emporia; Doug Shonk of Culpeper; Earl Frazier of Remington; Tilghman Broaddus of Mechanicsville; E. C.C. Woods, Jr. of Hanover; Willie C. Johnson of West Point; William A. Robinson of Skippers; John C. Bauserman of Orlean; George W. Clark of North Garden; and Leroy F. Lynch of Lawrenceville.

CERTIFICATE OF RECOGNITION

By virtue of the authority vested by the Constitution in the Governor of the Commonwealth of Virginia, there is hereby officially recognized:

JUSTICE FOR JUVENILES WEEK 1978

The Commonwealth has no richer or more vital resource than her young people. When we prepare for their future, we prepare for Virginia's futurp as well.

It is imperative that in our homes, our schools, our churches and throughout our communities young people be provided with ample opportunities to grow into productive adults.

To further this cause, our Women's Clubs and other organizations will observe the period January 8 - 14, 1978, as Justice For Juveniles Week, and I call the significance of this observance to the attention of all Virginians.

A copy of the above Certificate of Recognition was received by the Appomattox Junior Woman's Club in recognition of their interest in justice for juveniles.

Eating Well

Dieting May Be Dangerous

Now that the holidays are over, many of us who have eaten too much have made a New Year's resolution to go on a diet and get rid of some of that unneeded weight.

This is just a reminder that you should not try to lose a lot of weight over a short period of time. "Fad Diets" and "Quick-Weight Loss Diets" should not be used. Do not use the liquid or powdered protein diets or any other diet unless you are under the care of a physician. Many of the high protein diets can be purchased at a local pharmacy without a prescription. When these diets are used under medical supervision, the dieter makes regular visits to a physician; this is usually every day for the first two weeks and once a week thereafter. Blood and urine samples are continually analyzed and problems are detected and corrected before they become serious.

You have probably read and heard on television that the "Liquid Protein Diet" is very dangerous and may have been the cause of many deaths. Last November the Center for Disease Control investigated ten of these reported deaths. All were obese women between the ages of 25 and 44 who had been on the "liquid" diets for long periods of time. Although none had a history of heart disease, all died suddenly of heartbeat irregularities.

The Food and Drug Administration has stated that the liquid protein diets are not nutritionally complete and they can lead to serious nutritional deficiencies, including potassium imbalance, which can cause irregular heartbeats; rapid drops in blood pressure on standing up; or muscle weakness and cramps, dry skin, and hair loss.

The liquid-protein formulas are usually made from the fibrous protein collagen taken from non-edible animal tissue. Estimates are that the total caloric intake from the diet is approximately 250 to 500 calories per day. Because of the limited number of calories weight loss is rapid, and can in some cases be as much as 25 pounds per month. Keep in mind that physicians and nutritionists suggest that a "safe" amount of weight to lose on a diet is from four to eight pounds per month.

The risk to your health of "going on a diet" is great. Be sure that you obtain information about weight control diets from your physician or your local health department before beginning.
